

## Installation of Firebird Databaseserver

**Installation:**

- Please insert the prosys/2 – CD-ROM.
- Browse the CD-ROM with Explorer.
- Open the directory „FIREBIRD“
- Start the Setup program „Firebird-1.0.0.796-Win32.exe“.
- Follow the installation instructions.

**Attention:**

Depending on the type of installation of prosys/2, chose the type of installation of Firebird:

- a. If you choose „Client-Server-Installation“ for prosys/2, you must install also the Firebird-Server.
- b. If you choose „Client-Installation“ for prosys/2 the use “Minimal Client Installation” for Firebird.
